

HENS NOW ARE BUSY; PRICE OF EGGS TOWER

Further Drop Expected When
Warm Spring Weather Really
Has Arrived.

Butter Remains High. Wholesale
Price Even Showing Advance of
One Cent a Pound.

In spite of the backwardness of spring the hens of the country have gone to work to do their part in reducing the high cost of living. The result of their efforts has been a drop of 5 cents on the dozen for choice eggs, and the market dealers state that good fresh eggs can now be bought as low as 25 cents a dozen. With the coming of warm spring weather a further drop in egg prices is looked for. Butter, however, remains high. No advance was made in retail prices in the past week, though there was an advance of a cent a pound in wholesale prices. Good butter is selling today at from 35 to 40 cents a pound, and choice grades up to 50 cents a pound.

On the produce benches apparatus, which had been selling from 75 cents to \$1.75 a bunch, today sold at 40 to 75 cents a bunch. Fresh line disappeared from the market. With the exception of a slight lowering in prices on lamb and fresh port, no change is to be noted in the meat market. Prices on poultry, fish and fruits remain unchanged from those of last week.
